

Repair and Maintenance Information

RMI

This technical sheet offers our entire network (dealers, importers, end customers, etc.) the opportunity to access information on repairs and maintenance in accordance with EU Regulation No. 167/2013 of 5 February 2013. The equipment subject to this regulation is interchangeable towed semi-mounted equipment (category S) with its own axle. Equipment received under the following approval numbers is concerned:

- e9*167/2013*11117*00
- e9*167/2013*11129*00
- e9*167/2013*11133*00

Here is the procedure to follow in order to order the right components for your equipment:

1 – Go to the “My Agrisem” website using the following address www.my.agrisem.com or by scanning the QR code on the nameplate of your equipment.

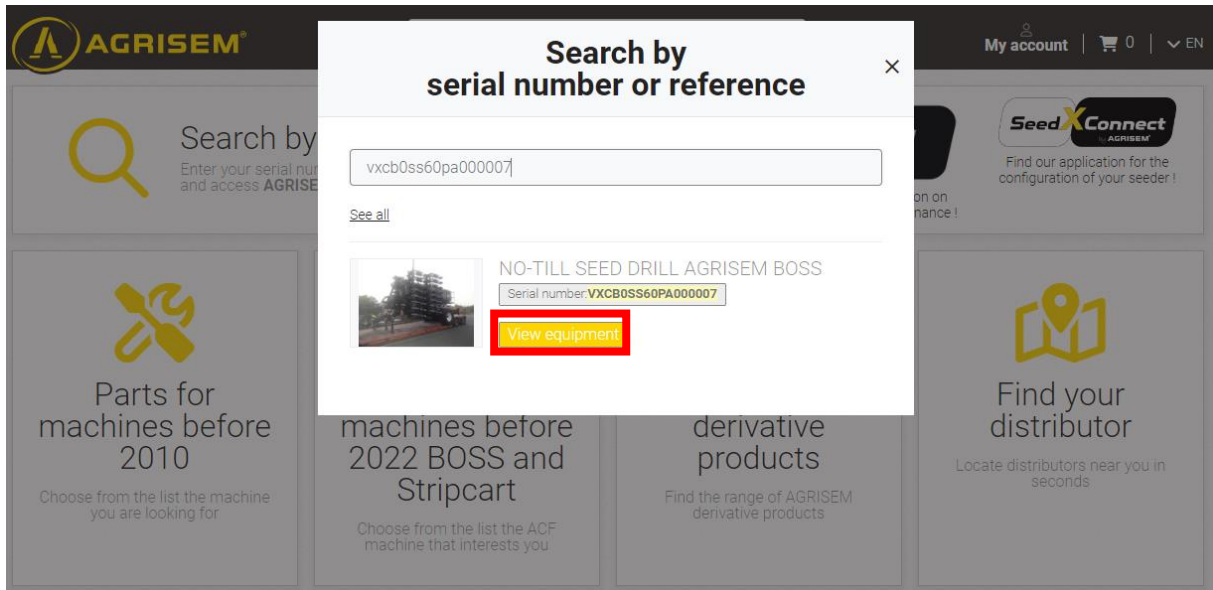

2 – Enter the serial number of the equipment by clicking on “Search by serial number or reference” or “What are you looking for”

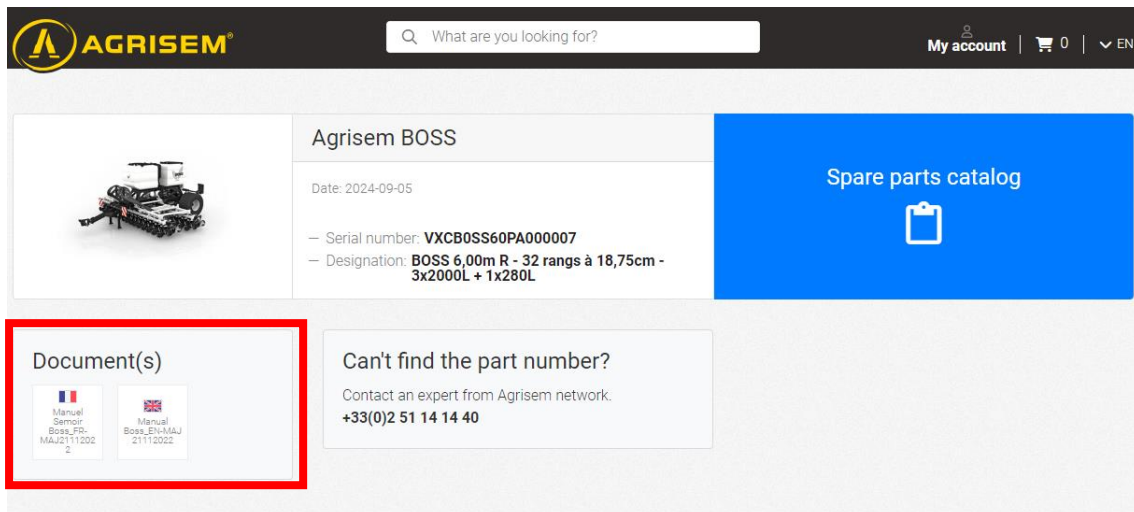

The screenshot displays the My Agrisem website interface. At the top, there is a search bar with the placeholder text "What are you looking for?". Below the search bar, a red box highlights a search option: "Search by serial number or reference" with a magnifying glass icon and the subtext "Enter your serial numbers or references here and access AGRISEM's parts and materials". To the right of this box are two logos: "RMI" with the subtext "Access information on repairs and maintenance !" and "SeedXConnect AGRISEM" with the subtext "Find our application for the configuration of your seeder!". Below these elements are four main navigation tiles:

- Parts for machines before 2010**: Choose from the list the machine you are looking for.
- Parts for machines before 2022 BOSS and Stripcart**: Choose from the list the ACF machine that interests you.
- Goodies and derivative products**: Find the range of AGRISEM derivative products.
- Find your distributor**: Locate distributors near you in seconds.

3 – Once the serial number is entered, select your equipment by clicking on “View equipment”

4 – From here you have a link to the user manual for everything related to equipment maintenance

5 – You also have access to the equipment spare parts catalog by clicking on “Spare parts catalog”

The screenshot shows the AGRISEM website interface. At the top, there is a search bar with the text "What are you looking for?" and navigation links for "My account", a shopping cart icon with "0", and a language selector set to "EN". Below the search bar, the main content area is divided into several sections. On the left, there is an image of the BOSS 6,00m R machine. To its right, the text "AgriseM BOSS" is displayed, followed by the date "Date: 2024-09-05". Below this, the serial number "Serial number: VXCB0SS60PA000007" and the designation "Designation: BOSS 6,00m R - 32 rangs à 18,75cm - 3x2000L + 1x280L" are listed. A prominent blue button with a clipboard icon and the text "Spare parts catalog" is highlighted with a red border. Below the main information, there are two sections: "Document(s)" which includes two manual icons for France (MAU211202 2) and the UK (21112022), and "Can't find the part number?" which provides contact information for an expert from the AgriseM network: "Contact an expert from AgriseM network. +33(0)2 51 14 14 40".

6 – From the catalog, you can choose the standard part groups you are looking for (wear parts or maintenance and routine servicing parts) or also the more specific part groups that allow you to follow EU regulation 167/2013 of February 5, 2013 (signaling, axles, braking system, protection system, tires, coupling, etc.)

The screenshot displays the AGRISEM spare parts catalog for the BOSS 6,00m R - 32 rangs à 18,75cm - 3x2000L + 1x280L. The catalog is organized into a grid of images showing various components. On the right side, there is a list of parts with their descriptions, quantities, and shopping cart icons. The parts listed are:

Part Number	Description	Quantity	Shopping Cart Icon
22	S115.290 - Kit freinage pneumatique	1	Yes
23	ROUE-565-R - Roue 710/50R26.5 - 8 trous - Droite (Jante RAL9016)	1	Yes
24	S111.291 - Plaque support capteur élément	1	Yes
25	BO01-13-119 - Kit pneumatique pour chasse débris - Sans tuyau ni raccord	1	Yes
25	S111.291 - Plaque support capteur élément	1	Yes
26	TUP-4/6 - Tube polyamide noir 4/6	40	Yes
27	S102.292 - Raccord pneumatique - T6 - 3 Tup-4/6	28	Yes
28	S111.207-LH - Ensemble chasse débris - Gauche	16	Yes
28	S102.292 - Raccord pneumatique - T6 - 3 Tup-4/6	28	Yes
29	S111.207-RH - Ensemble chasse débris - Droit	16	Yes
29	S111.207-LH - Ensemble chasse débris - Gauche	16	Yes
30	BO01-30-015 - Kit électronique BOSS - 4 moteurs - GPS - Muller	1	Yes
30	S111.207-RH - Ensemble chasse débris - Droit	16	Yes

7 – Once the part group is selected, you have access to the details of the references of the components assembled on your equipment at the factory. Assembly plans and notes are also available for download on the “Documents” line above the exploded view.
